

## SADRŽAJ

- 5 Riječ urednika
- 7 METODIČKA ISTRAŽIVANJA
- 9 *Dževdet Hadžiselimović*  
Dijalekt i/ili strani jezik u ranoj dobi: tako jednostavno ili ipak znatno složenije?
- 21 *Miroslav Huzjak*  
Odgoj, misao i smisao –  
Pogled na odgoj kroz prizmu teorije umjetnosti
- 31 *Vladimir Kadum*  
Utjecaj učenja rješavanjem problemskih zadataka na obrazovni učinak u elementarnoj nastavi matematike
- 61 *Milan Polić*  
Integralna nastava kao odgovor na suvremene obrazovne potrebe
- 73 *Riccardo Sirello*  
Filozofija i odgoj: sloboda ili usaglašavanje –  
Ukrštanje puteva suvremenosti
- 79 *Josip Sliško i Rebeca Medina Hernández*  
Uspjesi i teškoće jedne implementacije paradigme  
»aktivnoga učenja« u sveučilišnoj fizici
- 103 *Antonio Svedružić*  
Kreativnost i divergentno mišljenje u nastavi prirodoslovlja

## CONTENTS

5	Editorial
7	METHODIC RESEARCH
9	<i>Dževdet Hadžiselimović</i> <i>Dialect and/or a foreign language at an early age: so simple or significantly more complex?</i>
21	<i>Miroslav Huzjak</i> Education, thought and meaning <i>Examining education through the prism of the theory of art</i>
31	<i>Vladimir Kadum</i> The influence of learning on educational performance in the elementary teaching of mathematics through problem solving tasks
61	<i>Milan Polić</i> Integral schooling as an answer to the needs of contemporary education
73	<i>Riccardo Sirello</i> Philosophy and education: freedom or coordination – The intersection of the paths of contemporaneity
79	<i>Josip Sliško i Rebeca Medina Hernández</i> The first results of an implementation of the active learning paradigm in university physics
103	<i>Antonio Svedružić</i> Creativity and divergent thinking in natural science teaching
